

POWERFUL CLOUD MANAGEMENT FUNCTIONALITY

The introduction of cloud technologies has dramatically changed how organizations buy, manage and consume their IT services. Cloud providers are increasing operational efficiency and agility by making it easier for businesses to move to the cloud without ever having to engage IT.

CENTRALIZE ACCOUNTS INTO A CONSOLIDATED BILLING MODEL

This new-found freedom creates flexibility; however, it also creates sprawl for IT assets and their related costs. Departments and individuals have multiple credit cards and multiple accounts deployed across multiple clouds and this creates challenges for visibility, budgeting, and management.

HighVail's Cloud Solutions **simplify** this cloud adoption process by providing:

- The ability to accurately track actual (not estimated) usage across cloud providers including AWS, Azure, and Softlayer
- Cloud services monitoring through intuitive dashboards and customizable reports
- Access to granular per hour usage details
- Detailed billing histories and analytics reporting based on actual billing data, current, and historical demand
- Intelligent optimization recommendations
- A catalog of infrastructure and custom integrated services with rapid deployment
- Try before you buy options
- Consolidated billing and 30-day terms

ACCURATELY TRACK, MAP USAGE & CHARGE-BACK COSTS

HighVail can create, provision and provide detailed billing on complex environments in the cloud to provide your team with predictable, well managed cloud costs. With this much visibility into your cloud deployment, you can optimize your efficiency, agility and cloud spend from top to bottom. Whether you're already deployed with a cloud provider, you want to ramp up your cloud deployment or take advantage of complex multi-vendor solutions in the cloud; HighVail's Cloud Solutions can help you.

WHY HIGHVAIL?

HighVail leads, supports and enables organizations as they drive IT innovation. Since 2003, we approach innovation as an ongoing, sustainable and strategic commitment that drives industry leadership through exceptional customer experiences. At HighVail, our relentless focus on enabling IT advancement and the cumulative benefits that progress delivers is what drives us. Enhanced organizational agility and accelerated time to value are two results that provide measurable returns on your investments. 100% customer satisfaction is our commitment to you.

By consolidating your cloud billing with HighVail you will **save** money on your monthly subscriptions with no changes to your existing infrastructure. To get started email info@highvail.com or call **(416) 867-3000**.
